

The Tong sai Bay

Ko samui, Thailand

Surrounded by tropical nature, breathing tropical air and simply admiring the view of The Tong sai Bay.

It only makes sense why our guests spend more time in the open air than in air-conditioned boxes. Every room offers great seaview. There are in total 83 rooms in a vast area of 25 acres of land. The Tong sai Bay offers 3 main types of accommodation namely the Beachfront Suites, the Cottage Suites and the Tong sai Grand Villas.

The Tong sai Bay Cottages & Hotel is the only resort in Ko Samui with a private beach. Our private beach is by no means small either. It's 200 meters long. It never gets crowded even when all rooms are fully occupied.

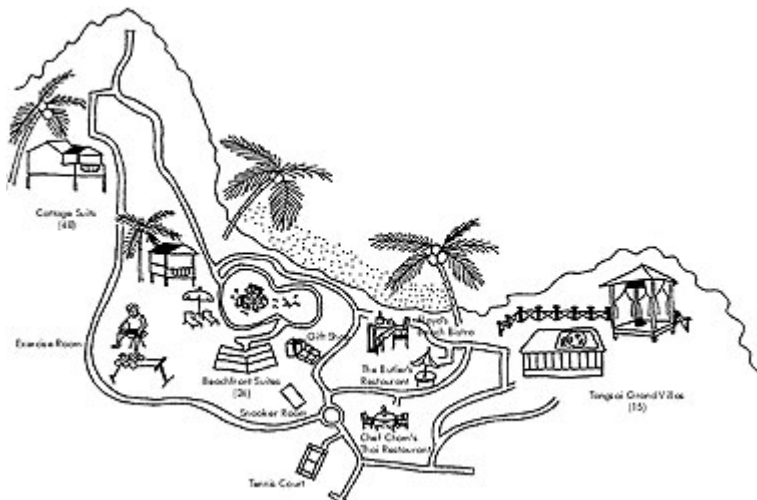

The sea is for everyone but at Tong sai Bay the whole bay is yours . Sun bathing in peace. No beach vendors, no dogs, no passersby

Lovers' Corner is right at the end of the beach on the right hand side. This is the most secluded part of the beach.

Free-form salt-water swimming pool and the beach is right next to Floyd's Beach Bistro and the Beachfront Suites.

24 Beachfront Suites

in a 3-storeyed chalet-type building next to the swimming pool and the beach.. Each suite has an area of 72 sq.m., half of it which is the open-air living area on the terrace. Each has a bathtub on the terrace offering fantastic seaview.

There are 6 of **Family Beachfront Suites** on the ground floor of the Beachfront Suite building. Each one is large enough to accommodate a maximum of 2 adults and 2 children.

Cottage Suites

There are 44 cottages dotted around on the hill leading down to Tong sai's private beach.

The Cottage Suites are well-hidden by existing trees which were never cut down when we first built the cottages. The end product of preserving the nature is natural shade and privacy.

Although there are lots of trees, all cottages still offer seaview from their terraces. The standard sizes of cottage suites are 60, 68 and 78 sq.m.

Each of 44 Cottage Suites has a bathtub on its own private terrace, in line with our concept of 'Bath with a View'. Nobody could see you unless you exhibit yourselves. 5 Cottage Suites also offer bathtubs in private, roofless walled-gardens in the backyards. Each bathtub in the garden has uniquely different design.

There are 4 **Family Cottage Suites** accommodating up to 2 adults and 2 children. Each cottage has different characters as each one of them is situated on different location and thus varies in shape and size offering different angles of scenery. Room facilities and interior in the air-conditioned area, however, are more or less very similar to one another. We use a lot of wood to create tropical cosiness and warmth.

At The Tong sai Bay, we try to make each room as individual as it can be. The result is that you would feel like you stay in your own house.

Tong sai Grand Villas

Have you ever wondered how it feels to sleep on a Gazebo out in the open ?

We could end your wondering. The Tong sai Grand Villas - The ultimate outdoor living The definition of the word 'luxury' is different at The Tong sai Bay. Space, open-air and nature are all included in the word luxury. The 15 Tong sai Grand Villas offer every square inch of luxury.
