Bonhomie

 Beach Cottage

The owner's son is an architect. He carefully studied the island view and her environment before building the cottages next to the beach . The cottages are in harmony with the natural forest. They were built by skilled carpenters from the north of Thailand, who used reclaimed timber. It is our intention to keep the island green, and no large trees were cut down.

Bonhomie Beach Cottage , family owned and run, prides itself on showing our guests from all around the world a good time, the beauty and privacy of our beach and the well kept culture and natural beauty of Ko Pu.

Activities avilable include snorkelling, scuba diving, hiking, kayaking, mountainbiking or visiting traditional fishing villages.

All our rooms are comfortable, with ensuite facilities (freshwater shower), and there is a lovely cool sea breeze throughout most of the year. You are bound to enjoy our home cooked western or Thai meals.
